REQUEST FOR CORRECTED FILING RECEIPT

Assistant Commissioner for Patents
Office of Initial Patent Examination
Customer Service Center
Washington, D.C. 20231

Sir:

Upon review of the Updated Filing Receipt received from the U.S. Patent and Trademark Office in connection with the above-identified application, the following errors were noted.

Under Applicant(s):

The residence of the second named Applicant, Michael C. Flickinger, should be "Roseville, MN", not "St. Antony Park, MN".

The third named Applicant should be "L. Edward Scriven II", not "L. Edward Soriven II".

Under Domestic Priority data as claimed by applicant:

The following should be added:

"which claims benefit of 60/100,914 09/17/1998".

This is a 371 National Stage application of PCT US 99/21581, filed September 17, 1999, which claims benefit of Provisional Application No. 60/100,914, filed September 17, 1998.

Request for Corrected Filing Receipt

Applicant(s): LYNGBERG et al.

Page 2 of 2

Serial No.: 09/647,475

Confirmation No.: 7111

Filed: August 20, 2001

For: COMPOSITE DEVICES INCORPORATING BIOLOGICAL MATERIAL AND METHODS

Both of the above applications were filed prior to November 29, 2000. Therefore, it is Applicants' Representatives understanding that the current Patent Rules, which require that an amendment to priority claims to prior-filed applications be submitted within a specified time period, do not apply.

The claim of priority to Provisional Application No. 60/100,914 was stated in Box VI of the PCT Request Form PCT RO/101 which was filed with this 371 National Stage application. This claim of priority was also made in the Declaration of the inventors filed August 20, 2001. The specification was amended to include this priority information on August 20, 2002.

A copy of the Filing Receipt with the-above noted corrections marked is enclosed. Applicants respectfully request a corrected Filing Receipt.

If the Examiner has any questions regarding this submission, please contact Applicants' Representative at the below-listed telephone number.

Respectfully submitted for

Date Mailed: 02/07/2003

Receipt is acknowledged of this regular Patent Application. It will be considered in its order and you will be notified as to the results of the examination. Be sure to provide the U.S. APPLICATION NUMBER, FILING DATE, NAME OF APPLICANT, and TITLE OF INVENTION when inquiring about this application. Fees transmitted by check or draft are subject to collection. Please verify the accuracy of the data presented on this receipt. If an error is noted on this Filing Receipt, please write to the Office of Initial Patent Examination's Filing Receipt Corrections, facsimile number 703-746-9195. Please provide a copy of this Filing Receipt with the changes noted thereon. If you received a "Notice to File Missing Parts" for this application, please submit any corrections to this Filing Receipt with your reply to the Notice. When the USPTO processes the reply to the Notice, the USPTO will generate another Filing Receipt incorporating the requested corrections (if appropriate).

**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12. If a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

RESPONSE TO RESTRICTION REQUIREMENT

Assistant Commissioner for Patents
Washington, D.C. 20231

Dear Sir:

In response to the Restriction Requirement mailed March 24, 2003, Applicants elect, with traverse, Group I (claims 1-24 and 48), drawn to a composite biological device, comprising the "special technical feature" of at least a portion of the biostructure comprising a nonporous latex-derived material. Applicants' Representatives reserve the right to pursue examination of the non-elected claims in continuation or divisional applications. Applicants respectfully request reconsideration of the restrictions in this case and submit that the inventions as claimed can be readily evaluated in one search without placing undue burden on the Examiner.

Applicants' respectfully request at least rejoinder of Group III (claims 27-30). These claims are directed to methods of making a composite biological device wherein at least one of the latices forms a nonporous component of the microstructure.

Response to Restriction Requirement
